CCNA (SECURITY) – Cisco Certified Network Associate(SECURITY)

Cisco Certified Network Associate Security (CCNA® Security) validates associate-level knowledge and skills required to secure Cisco networks.

With a CCNA Security certification, a network professional demonstrates the skills required to develop a security infrastructure, recognize threats and vulnerabilities to networks, and mitigate security threats.

Syllabus: The CCNA Security curriculum emphasizes core security technologies, the installation, troubleshooting and monitoring of network devices to maintain integrity, confidentiality and availability of data and devices, and competency in the technologies that Cisco uses in its security structure.

Courses Offered

Cisco Associate:

CCNA,

CCNA (Security, Voice, Wireless)

CCDA

Cisco Professional:

CCNP

CCVP

CCSP

Value Added Service - In addition to the above our staff will train you on consulting skills, Interview techniques and presentation skills.
